

## Heading

Document Name: Sprint 1 Plan

Product Name: Ride Share App

Team Name: #NOLife

Sprint Completion Date: October 16, 2015

Revision 1 (October 1, 2015)

## Goal

Our goal for the first sprint is to develop a fully working web application that will allow us to post and search for rides.

## Task Listing (Organized by user story)

User story #1: As a user, I need to be able to post a ride with details including time, date, origin, destination, and whether I'm a driver or a rider.

Associated tasks:

- To make a UI (12+ hours)
- To make a database (12+ hours)

User story #2: As a user, I need to be able to search for a ride based on time, date, origin, destination, and whether I'm a driver or a rider.

Associated tasks:

- To create a search algorithm (8 hours)

## Team Roles

Alix Feinsod: Project manager and developer

Alice Yu: Scrum master and developer

Christopher Peck: Scrum master and developer

Carol Figueroa: Developer

Timothy Ma: Developer

Brighton Keslin: Developer

## Initial task assignment

Alix Feinsod: User story #1 - UI, and user story #2 - search algorithm

Alice Yu: User story #1, database

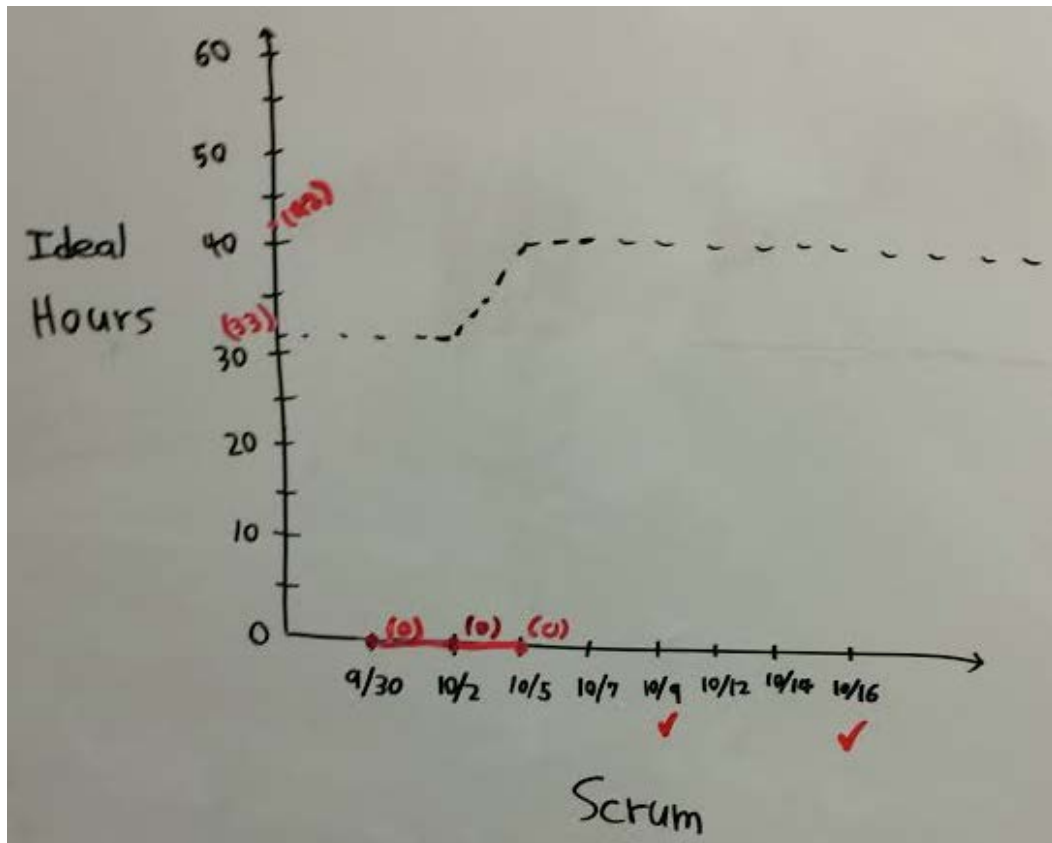

Christopher Peck: User story #1 - UI, and user story #2 - search algorithm

Carol Figueroa: User story #1, database

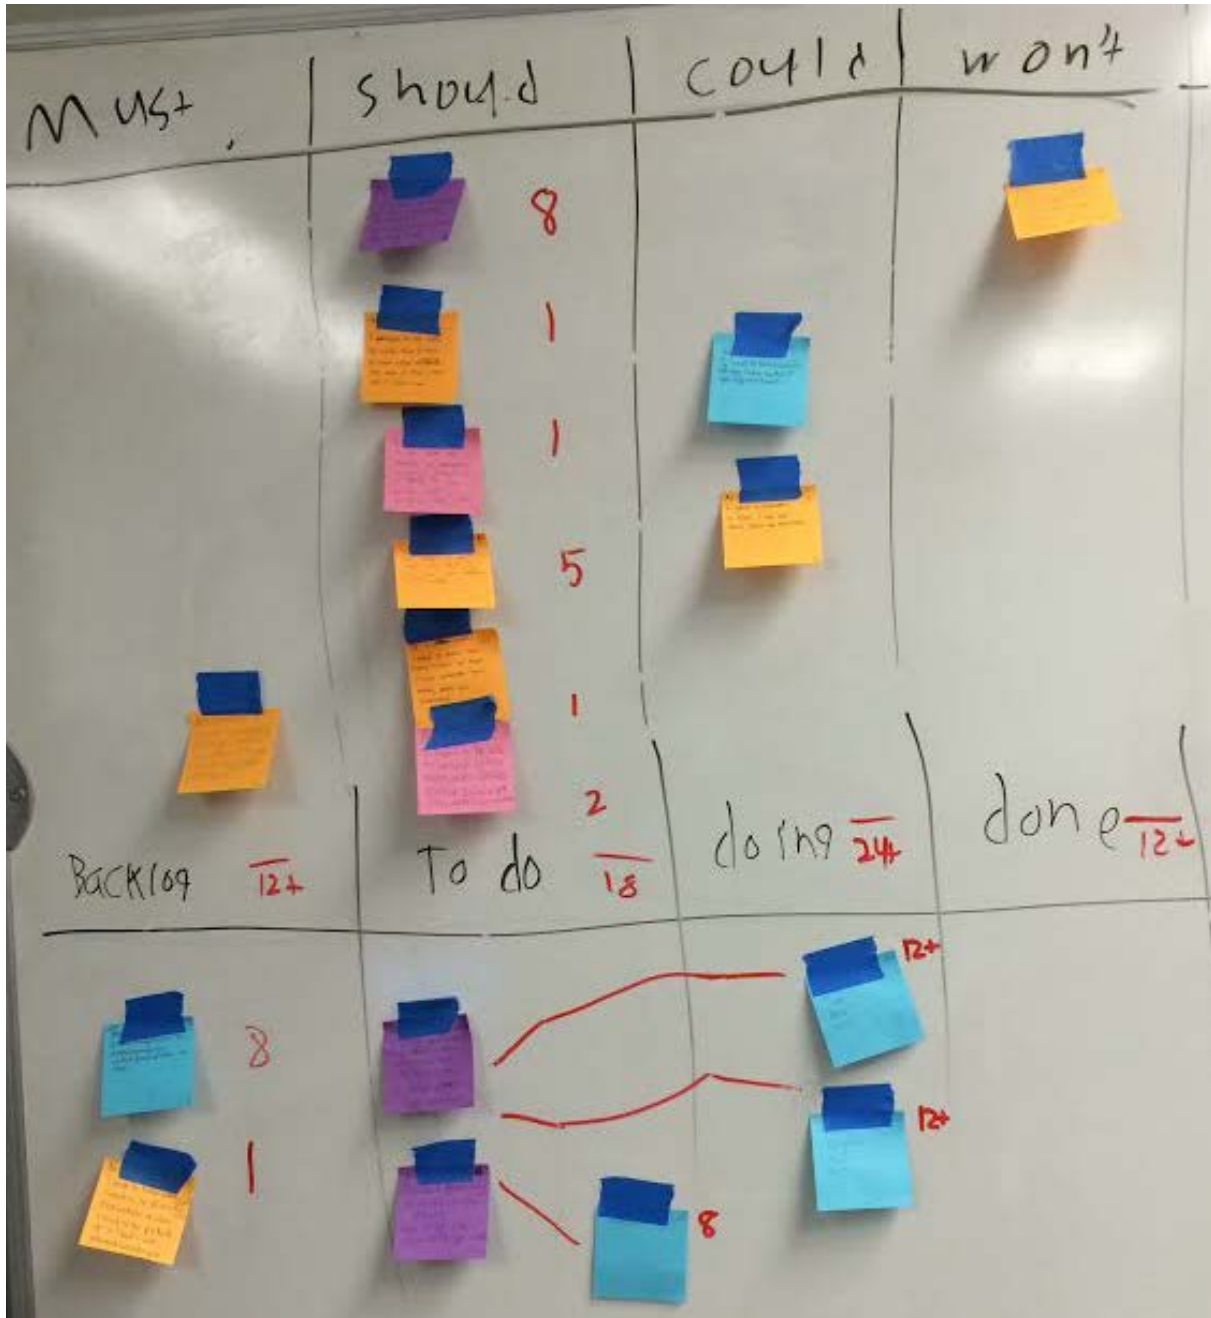

Timothy Ma: User story #1, database

Brighton Keslin: User story #1, UI

Initial burnup chart

### Initial scrum board

Scrum times

Monday (1:00 PM - 1:15 PM)

Wednesday (7:00 PM - 7:15 PM). This is the scrum meeting during which the TA will meet with us.

Friday (1:00 PM - 1:15 PM)
